

BA (Hons) Interior and Spatial Design

Additional Course Costs

There are costs associated with all studies, additional to the tuition fee, which require consideration, when planning and budgeting for expenditure. Costs are indicative and for the total length of the course shown unless otherwise stated and will increase with inflation; depending on the programme they may include equipment, printing, project materials, study trips and placement activities.

Additional course costs for BA (Hons) Interior and Spatial Design are outlined below:

Books and other Texts

Students will be required to purchase texts and journals to support their study programme. The minimum, average cost of books for students studying on a degree course is assumed as £100 per year.

Printing

We recommend a minimum budget of £50 per year for basic printing/photocopying costs.

Additionally, there is the final year prints (Level 6 only) for the summer show on photographic paper or board mounted which can range from £100 - 200. Costs are estimated and are entirely dependent on individual choice of presentation, paper stock, size etc.

Equipment/Materials

BNU will provide the tools, materials, consumables for all demonstrations and students' orientation in relation to products. Any materials required beyond the demo stage (e.g. for coursework or projects) will need to be covered by the student; these costs can vary depending on what materials are required but project costs are estimated between £100 and £200 per year. Students will be encouraged to acquire their construction tool kit, including cutter, cutting mat, A3 plastic portfolio, metal set squares.

BNU will also produce a price list for printing material, stationery, workshop materials among other small expenses which students can independently purchase for project work.

The school provides computer labs available for students, but from Level 5 is suggested to purchase a laptop: the cost for this will vary depending on specs but a selection could be between £200 - £1000. This is an optional cost for all students.

Study Trips

Optional study tours and trips within the UK will cost between £20 and £50 per year. This is an optional cost for all students since attendance on trips is not mandatory and the course leader usually arranges with SU to cover the travel and museum ticket costs to make the activity accessible to all.

In year or end of year exhibitions and projects

This course requires a degree exhibition and major projects so additional costs will be incurred. These costs can be discussed in detail with your course team, and some will be linked to a professional skills element of the course where organised fundraising for such activities may be included. Materials costs for this will vary depending on scale and selection and could be between £100 - £800.

Graduation

Graduation costs per student are estimated at £100 - £200 total. This is an optional cost for all students, as attending graduation is not a requirement in order to have a degree conferred.

Opportunity Modules

You can choose from a range of modules on offer, and these may incur a small cost, for example, for materials or travel to locations or work-based learning experiences. They will range from one module to another – please check the module information or ask your course team for details.
